

controllers/PretensionController.h

```
graph BT; A[controllers/PretensionController.cpp] --> C[controllers/PretensionController.h]; B[examples/3_prism/PrismModel.cpp] --> C;
```

The diagram illustrates file dependencies. At the top is a box labeled 'controllers/PretensionController.h'. Below it are two boxes: 'controllers/PretensionController.cpp' on the left and 'examples/3_prism/PrismModel.cpp' on the right. Blue arrows point from each of these bottom boxes up to the top box, indicating that both source files depend on the header file.
