

dev/tests/T6TensionController.h

```
graph BT; A[dev/tests/AppT6ModelTest.cpp] --> C[dev/tests/T6TensionController.h]; B[dev/tests/T6TensionController.cpp] --> C;
```

The diagram illustrates a header file dependency. At the top is a gray box labeled 'dev/tests/T6TensionController.h'. Below it are two white boxes: 'dev/tests/AppT6ModelTest.cpp' on the left and 'dev/tests/T6TensionController.cpp' on the right. Blue arrows point from each of these bottom boxes up to the top box, indicating that both source files include the header file.
