

tgRodInfo::createRigidInfo

```
graph LR; A[\"tgRodInfo::createRigidInfo\"] --> B[\"tgRodInfo::tgRodInfo\"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'tgRodInfo::createRigidInfo'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'tgRodInfo::tgRodInfo'.
